KOXZE MIRROR

CRAFTED FOR GLOBAL BRANDS

At KOXZE, we develop stainless steel mirror collections that combine timeless design, precision engineering, and dependable quality. Built for brands, wholesalers, and project professionals, our mirrors deliver project-ready consistency across hospitality, residential, and commercial interiors around the world.

Stainless Steel · OEM Manufacturing · Project Supply

Designed in steel.
Built for spaces that last.

MADE WITH INTENT

Material, process and finishing are what give each frame its final presence.

01 Polishing

Refines surfaces to achieve a smooth, consistent finish and lasting shine.

02 Precision Welding

Creates strong, precise joints with clean geometry and structural integrity.

03 Grinding

Shapes and smooths edges for accuracy, fit, and a refined finish.

REFLECTING EXCELLENCE

Design. Craftsmanship. Durability.
The KOXZE Standard.

COLLECTION OVERVIEW

KOXZE mirrors combine refined design with precision craftsmanship.

Our collections are created for modern spaces demanding both beauty and performance.

MINIMAL PROFILES
EXPRESSIVE SHAPES
CONTEMPORARY VERSATILITY

KMM004

FLOATING ROUND MIRROR

A round stainless steel mirror defined by an outer ring and a deliberate open gap. The floating construction adds shadow, depth and a clean architectural rhythm without making the profile feel heavy.

FLOATING EFFECT

Open spacing creates a visible shadow line and a lighter, layered profile.

ROUND GEOMETRY

A familiar circular form refined through proportion and frame separation.

STANDARD SIZE

DIA 600mm
Custom size

FINISH OPTIONS

Gold · Silver · Black
Custom color

LAYERED FRAME DETAIL

Outer ring · open gap · mirror

KMM010

RECESSED
ROUND
MIRROR

A deeper circular frame creates a recessed expression with more visible side depth. Its tapered stainless steel section gives the mirror a precise architectural edge while preserving a clean, minimalist face.

DUAL FINISH EXPRESSION

Available in Gold and Black, with custom color development for project collections.

FRAME DETAIL - GOLD FINISH

DEPTH WITHOUT VISUAL WEIGHT.

A slim front edge and deeper side profile balance lightness with architectural dimension.

SOFT FORMS PRECISE LINES

Two silhouettes, one vision. The oval and rounded rectangle mirrors from the Slim Frame Collection bring balance through contrast—soft curves met with precise metalwork.

KMM014

OVAL MIRROR

A vertical silhouette defined by calm proportion and a refined slim frame.

STANDARD SIZE

550 × 800mm

Custom size

FINISH OPTIONS

Brushed gold · Matte black · Custom color

KMM018

ROUNDED RECTANGLE MIRROR

Soft corners and clean edges offer versatility with a contemporary sense of ease.

STANDARD SIZE

500 × 700mm

Custom size

FINISH OPTIONS

Brushed gold · Matte black · Custom color

FLUID LINES SLIM PROFILES

Elegant slim-frame mirrors with organic silhouettes, balancing softness, lightness, and architectural clarity.

KMM044

MIRROR SET

A sculptural duo composed of one elongated statement mirror and one softer companion form, designed to create rhythm on the wall.

STANDARD SIZE

Large: 460 × 880mm

Small: 500 × 560mm

Custom size

FINISH OPTIONS

Brushed gold · Matte black · Custom color

KMM049

SLIM ORGANIC MIRROR

A vertical statement silhouette that introduces flow and understated sculptural character to modern interiors.

STANDARD SIZE

500 × 1000mm

Custom size

FINISH OPTIONS

Brushed gold · Matte black · Custom color

KMM063

IRREGULAR MIRROR

An expressive form with a softer asymmetry, offering a more artistic focal point while maintaining slim-frame precision.

STANDARD SIZE

600 × 900mm

Custom size

FINISH OPTIONS

Brushed gold · Matte black · Custom color

A SOFTER EDGE TO GEOMETRY

An irregular silhouette defined by controlled curves and a slim stainless-steel frame. Its softened geometry creates a distinctive focal point while remaining calm enough for contemporary residential and hospitality interiors.

KMM051

IRREGULAR MIRROR

STANDARD SIZE

600 × 850mm

Custom size

FINISH OPTIONS

CURVED HEIGHT ANGLED PRECISION

Two mirror forms, one refined language.
The arch mirror and octagon mirror in the Slim Frame Collection bring calm proportion, crisp geometry, and elegant metal finishing into modern interiors.

KMM039

ARCH MIRROR

A slim arched silhouette with balanced verticality and a clean matte black frame.

STANDARD SIZE

550 × 800mm

Custom size

FINISH OPTIONS

Matte black · Brushed gold · Custom color

KMM038

OCTAGON MIRROR

A geometric octagon profile with subtle facets and a refined brushed metal edge.

STANDARD SIZE

650 × 650mm

Custom size

FINISH OPTIONS

Brushed gold · Matte black · Custom color

ORIGINAL DESIGN SOFTLY STATED

The Cloud Mirror brings an organic sensibility to modern interiors. Its fluid outline and slim frame create a sense of calm and softness, adding a delicate balance to any space.

KMM083 CLOUD MIRROR

CLASSIC FRAME COLLECTION

More defined profiles, richer edge detail and a stronger framed presence shape this collection. From statement vanity mirrors to decorative wall pieces, each design brings depth, reflection and lasting character.

Collection 02 · Pages 16–23

DESIGN LANGUAGE

Defined by
contour and
reflection.

Classic profiles create a
composed visual rhythm,
bringing structure, warmth
and lasting presence to
modern interiors.

COLLECTION 02
CLASSIC FRAME COLLECTION

CLASSIC DESIGN DNA

STRUCTURE 01

Classic frame mirrors are defined by stronger profile visibility, deeper material expression and a more architectural relation between metal and glass. Instead of disappearing into the edge, the frame contributes depth, stability and a clear wall presence. The result is a collection with controlled geometry, richer silhouette and lasting material character.

DEFINED PROFILE

Stronger frame visibility creates a clear edge and distinct presence.

MATERIAL DEPTH

Deeper section profile brings richness, weight and lasting quality.

CONTROLLED GEOMETRY

Precise lines and considered corners deliver balance and structural clarity.

ARCHITECTURAL PRESENCE

Frame and glass work together to define space and elevate interiors.

ARCHITECTURAL DETAIL

STRUCTURE 02

Classic mirrors are distinguished by a broader visible frame face and a more substantial metal expression than Slim designs. This stronger profile gives the collection clearer presence on the wall, while different constructions introduce variety through layering, tubular sections and integrated details.

WIDER FRAME FACE

More visible metal on the front creates a bolder, more defined outline than a slim-profile mirror.

LAYERED / OFFSET

A secondary frame or offset mirror plane creates added dimension and a more sculptural edge.

INTEGRATED

Structure can extend into function, allowing the frame and shelf to read as one resolved piece.

TUBULAR

Rounded tube framing adds richness, softness and stronger material presence.

CLASSIC = VISIBLE FRAME CHARACTER

Across the collection, the unifying language is a fuller front-face profile and a stronger frame presence, expressed through different structural forms.

KMM005

OCTAGON MIRROR

With its crisp octagonal outline and thoughtful frame depth, this mirror introduces a composed decorative accent without overpowering the space. The silhouette works across refined residential bathrooms and broader interior styling applications.

STANDARD SIZE

700 × 700 mm Custom size

KMM016

FLAT FRAME MIRROR

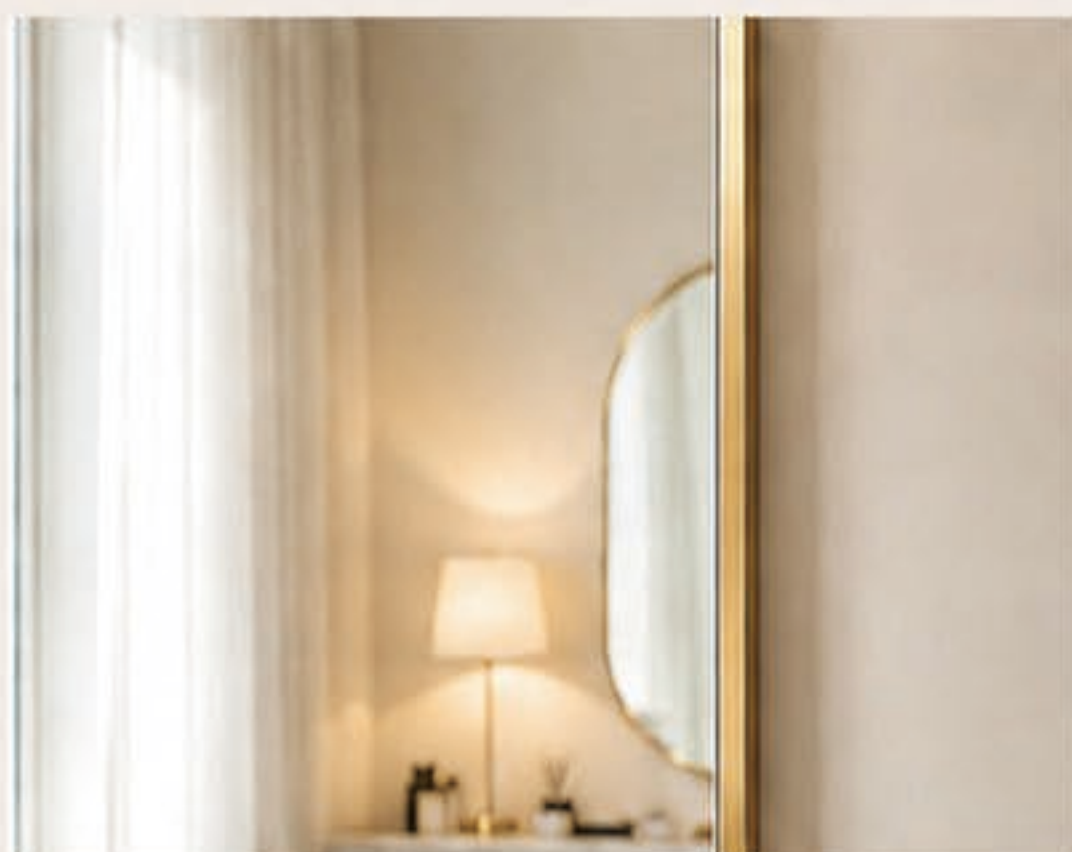

A rectangular stainless steel mirror with a broader front-face frame, giving the outline a stronger and more architectural presence. Its clean proportions make it suitable for bathrooms, dressing areas and refined residential or hospitality interiors.

STANDARD SIZE

500 × 700 mm · Custom size

FINISH OPTIONS

Gold · Black · Custom color

WIDER FRONT FACE

The broader visible frame face gives the mirror a stronger outline than a slim-profile design.

CLASSIC PROPORTION

Balanced rectangular geometry with a clear metal presence around the mirror plane.

TWO CLASSIC EXPRESSIONS

UTILITY AND SOFTNESS.
FUNCTION AND CALM.

The Classic Frame Collection celebrates timeless forms through enduring materials and considered detail. KMM027 adds intelligent utility with its integrated shelf, while KMM036 brings softer geometry and a quieter presence.

Different in expression.
Unified in quality.

KMM027

BUILT TO LAST

Premium frame construction with durable finishes for elevated daily use.

TIMELESS APPEAL

Classic forms that transcend trends and complement every space.

DESIGNED TO BELONG

Refined proportions and materials that feel at home in any setting.

KMM058

OFFSET FRAME MIRROR

An asymmetrical statement mirror defined by an offset mirror plane and a rounded metal perimeter frame. The layered construction creates depth between frame and glass, giving the piece a sculptural presence while maintaining a calm, architectural balance.

STANDARD SIZE

550 × 830 mm · Custom size

FINISH OPTIONS

Gold · Black · Custom color

LAYERED CONSTRUCTION

The mirror plane sits forward of the outer frame, creating depth, shadow and a floating presence.

TUBULAR FRAME

A rounded perimeter frame adds material richness and a stronger classic expression.

STATEMENT SILHOUETTE

The asymmetrical outline brings decorative character while staying refined and composed.

FORM, STRUCTURE, PRESENCE

From arched expression across the classic frame collection to versatile options, architectural form, and a dedicated focus on full-length mirrors.

CLASSIC COLLECTION—CLOSING

This collection celebrates the power of a well-defined frame—where structure, material, and proportion bring depth and clarity to every space. Classic forms, timeless in spirit, designed to endure.

NEXT COLLECTION

FULL LENGTH MIRRORS

Explore versatile full-length mirrors designed for everyday living.

FULL LENGTH MIRRORS

Versatile full-length mirrors designed for dressing areas, bedrooms, hospitality interiors and everyday living.

Balanced proportion, clear reflection and flexible placement bring confidence, light and calm to any space.

“

Lengthen perspective.
Reflect your world.
Live with clarity.

GENEROUS REFLECTION
Full-length clarity for complete perspective.

FLEXIBLE PLACEMENT
Wall-mounted or leaning, designed to adapt.

LASTING MATERIALITY
Stainless steel frames crafted to endure.

FULL-LENGTH PRESENCE

This collection balances height, reflection and outline with a calm architectural attitude. Slim profiles keep the mirrors visually light, while generous tubular frames introduce depth and softness. Together, these proportion strategies allow each piece to define space without overwhelming it.

01

PROPORTION AS PRESENCE

Frame scale changes the way the mirror occupies the room.

02

SOFT MASS, CLEAN EDGE

Rounded tube frames give KMFL014 and KMFL016 a distinctive substantial character.

03

EXTENDED VERTICALITY

Slender silhouettes support a lighter, more elongated reading.

PLACEMENT VERSATILITY

ONE MIRROR MULTIPLE WAYS TO LIVE

Designed for flexibility.
Wall-mounted or simply leaned,
each mirror adapts beautifully
to different spaces and lifestyles.

ADAPT TO YOUR SPACE
